## Summary

Thanks for taking the time to look at my Linked In profile. In short, I am a child and adolescent psychiatrist with additional training in neurodevelopmental disorders and evidence based assessments and psychotherapies. I consider myself first a physician, second a proponent of children and families, and third, a humanitarian citizen and lover of the arts.

Adolescence, turbulent or not, is a time of growth, exploration, and discovery. Sometimes when psychiatric illness or substance abuse imperils future directions, intense treatment experiences can save lives. The Adolescent Transitional Living Program at Silver Hill Hospital in Connecticut is a place where patients and families are cared for in such a way that deeper healing can truly begin. By using evidence based treatments with comprehensive evaluations and thoughtful discharge planning, our program offers the best treatments available for adolescents with complex psychiatric presentations.
